Thank You for Joining Us!
HAI/BSI LAN Meeting Will Begin Shortly
Meeting Facilitator/Hosts

Heather Camilleri
Quality Improvement Coordinator
ESRD Network Program
hcamilleri@nw1.esrd.net
203-285-1224

Jeanine Pilgrim
Quality Improvement Coordinator
ESRD Network Program
jupilgrim@nw2.esrd.net
516-209-5365
Agenda

- Review Meeting Objectives
- Speaker 1: Dawn Edwards
  - Patient Perspective
- Speaker 2: Gayle Mascarella
  - Best practices and overcoming barriers
- Overview: 2016 Healthcare Associated Infections-Bloodstream Infections Quality Improvement Activity (HAI BSI QIA)
- Expectations for the HAI LAN calls
- How to Reach your Network
- Closing Remarks/Next Steps
How to be ...

- Be present and engaged in our speaker presentations
- Remain open-minded and respectful in hearing other’s opinions
- Actively participating in the discussion
- Speak up on the line, send in comments in the chat
- Be mindful of muting your phone when not speaking
- Don’t place the call on hold, instead disconnect your line and rejoin the call when able
Objectives

- Listen to a patient perspective on infection control
- Discuss tools and strategies to reducing BSI’s
- View available Network resources to help reach project goals
- Plan to share the information learned on this webinar with the staff and patients in your unit
Patient Perspective
Speaker 1: Patient Perspective

Dawn Edwards
PAC Advisor/Co-Chair
IPRO Board Member
ESRD Network of New York
Facility Success Story
What was your top takeaway or key learning from hearing Dawn’s story?

</table>
| Patient Safety: Healthcare Acquired Infections (HAI) | • Support NHSN  
• Establish HAI LAN  
• Reduce rates of dialysis events (BSI/Sepsis)  
• Increase HBV & pneumococcal vaccination rates |
ESRD Network Responsibilities

- Improve quality of care for ESRD patients
- Encourage patient engagement
- Support ESRD data systems and data collection
- Provide technical assistance to ESRD patients and providers
Facility Responsibilities

- Timely submission of data
- Keep facility personnel information updated in CROWNWeb
- Discuss challenges/barriers to participation in activities

**Communicate with the Network**
Bloodstream Infection (BSI) Reduction QIA

- **Domain**
  - Patient Safety: Healthcare-Associated Infections (HAIs)

- **Scope**
  - 20% of Network facilities

- **Objective**
  - Reduce BSI rates in outpatient dialysis facilities using CDC intervention materials

- **Goal**
  - 5% relative reduction of pooled mean BSI rate by second quarter of 2016
HAI – Reduce BSI QIA: Audit Tools
**Blood Stream Infection Monthly Summary Collection Tool**

<table>

HAI BSI Pooled Mean Data
Questions

 Do you have a success story or best practice model you would like to share?
 What barriers are you facing that we haven’t covered yet?
 We want to feature you or these topics on future webinars, send your suggestions to hcamilleri@nw1.esrd.net
