Introduction
The 2020 ESRD Dialysis Facility Critical Asset Survey (CAS) was completed by 157 facilities in the state of South Carolina during the period of May 27th through June 30th, which represented 100% of open dialysis facilities during this time period. The Critical Asset Survey was released and administered by IPRO – ESRD Network of the South Atlantic (NW6). The data collected through this survey was used to create (1) Dialysis Facility Summary Report distributed to dialysis facilities to be added to their emergency preparedness plan, (2) State Partners Raw Data in Excel and (3) this State Partner CAS Summary Report. This summary report will assist your analysis of the data by quickly highlighting key questions that you may want to explore deeper with the raw data. For questions about this report, please contact the ESRD Network Executive Director at Shannon.Wright@ipro.us or 919-463-4512.

Demographics

Dialysis Affiliation Breakdown (Total Facilities: 157)

FKC = Fresenius Kidney Care; DCI = Dialysis Clinic, Inc.
Dialysis Facilities offering Home Dialysis Program:
