

# The IPRO ESRD Network Program can help resolve many concerns you may have about the care you receive as a dialysis patient.

The mission of the IPRO End Stage Renal Disease (ESRD) Network Program is to promote health care for all ESRD patients that is safe, effective, efficient, patient-centered, timely, and equitable.

## Network staff CAN...

Advocate for patients' rights, depending on the situation.	~ Example: "My unit is too cold" With your permission, a Network staff member can contact your facility to find out if the temperature can be controlled.
Provide information and educational resources.	~ Example: "I need a fourth shift, and my facility does not offer one" The Network can provide you with a list of facilities in your area that offer a fourth shift (Dialysis Facility Compare tool available on <a href="http://www.medicare.gov">www.medicare.gov</a> )
Investigate concerns about issues related to quality of care.	~ Example: "I am upset about the care I am receiving at my facility" The Network can conduct a review of your medical record to evaluate the quality of care you are receiving.
Help patients understand their rights and help them navigate the ESRD care delivery system.	~ Example: "I don't agree with a policy at my facility" The Network can advocate on your behalf and could help you work with facility staff to find a compromise that would work for you and the facility.

## However, some concerns may be beyond the Network's scope. Network staff CANNOT...

- ❌ Force a facility to accept a patient.
- ❌ Close a dialysis facility.
- ❌ Go onsite to investigate a facility's clinical procedures, witness interactions between staff and patients, or view a videotape of incidents (HIPAA violation).
- ❌ Add a patient to the transplant list.
- ❌ Recommend a lawyer and assist with a lawsuit.
- ❌ Get staff members fired or arrange for staff to have their pay docked.
- ❌ Force a facility to change its admissions policy regarding catheters.
- ❌ Verify Medicare coverage or give out Medicare cards.
- ❌ Interfere with facility surveys.
- ❌ Hide a patient's involuntary discharge (IVD) history.

The Network collaborates with the State Department of Health to advocate for individuals and help resolve concerns about care received at dialysis facilities.

Better healthcare, realized.
